MEMORANDUM FOR: Director of Personnel

SUBJECT: Flight Pay

1. Thank you very much for your memorandum of 14 June on our flight pay dispatch, particularly as it most delicately brings to my attention the fact that I failed to coordinate with you on it before dispatch. While thinking of it as a legal problem, it does, of course, go right into our particular personnel administration problems. I had written it as a proposed answer to an [REDACTED] dispatch, and there was no intention to short circuit your office, but it would have been better practice certainly to have seen that your views were in accord.

25X1A

25X1C

25X1A

the point is raised, as usually the staff agent benefits are automatically applied. Your Office will have our opinion on this latter case, but I felt that you might be interested as a considerable feeling arose in connection with the [REDACTED] case and I think there has been insufficient understanding of how the principles work out.
